Hi Chuck.

Below are process for complete rotating assemblies as discussed. You will get a rotating assembly with the Sylvan Glen upgrade, so did not bother to quote it now. Strongly recommend the hardened materials, although maybe go with STD for T8 as its pretty expensive.

<u>Item</u>	<u>PN</u>	<u>Price ea \$\$</u>
T3 rotating assembly with hardened wear resistant materials	44163-327	3489.00
T3 rotating assembly STD materials	44163-265	2912.00
T4 rotating assembly with hardened wear resistant materials	44163-329	3889.00
T3 rotating assembly STD materials	44163-261	3048.00
T4B rotating assembly with STD materials	44163-388	3376.00
T8 rotating assembly with hardened wear resistant materials	44163-333	6066.00
T3 rotating assembly with STD materials	44163-291	4826.00

Tom,

G-R Integrinex retrofit kit to replace existing Silver EPS which is 20 plus years old.

48313-835 \$ 2245.00

Leadtime on anything above is 1-2 weeks. Add \$ 150.00 per rotating assembly for freight. If you purchase multiple, freight will be less.

Thanks,

Dan
